Create a learning plan by scheduling your classes from now until graduation. If you have done this in a previous class just update your list, otherwise start from scratch. Use Excel to create a spreadsheet organized by year, then quarter. Highlight the courses selected to fulfill the GHEE requirements. Be as complete as you can at this point. Tools that may be helpful:

- Degree audit (MYWWU)
- Class open (MYWWU)
- 4-year planner (Engineering office)
- GHEE planner
- University bulletin (online)
