This homework assignment asks you to complete your learning plan by adding components to HW #6 which is copied below in italics for your convenience:

Create a learning plan by scheduling your classes from now until graduation. If you have done this in a previous class just update your list, otherwise start from scratch. Use Excel to create a spreadsheet organized by year, then quarter. Highlight the courses selected to fulfill the GHEE requirements. Be as complete as you can at this point. Tools that may be helpful:

- Degree audit (MYWWU)
- Class open (MYWWU)
- 4-year planner (Engineering office)
- GHEE planner
- University bulletin (online)

Please complete the following items and add them to your learning plan, and then submit this document to the HW #7 dropbox in D2L:

1. Restate your three learning objectives for your plan from homework #4.

2. Restate your career goal.

3. What are the educational requirements to meet your career goal?

4. What are the experience requirements to meet your career goal?

5. What is your current status in regards to reaching your career goal?

6. What do you see as primary obstacles to reaching your career goal?

7. Sketch a reasonable time line to reaching your career goals.
